8.8.5.11 ENHANCEMENTS

Technology Refresh

New Design Layout for OGE 450s (Filer Side)

Defects and Changes

# Technology Refresh (Continuation from 8.7 Release)

The FDM 8.8.5.11 technology refresh includes various improvements to the underlying technologies that support the application. The release includes the following benefits:

- Modernization of the technology framework that supports FDM

- Faster page load speed

- Upgraded user interface for optimized user navigation in OGE 450s

New Design Layout for OGE 450 Filers

Old design

New design UI update only; all functionality tabs and buttons remain the same. The 8.8 update applies to the Filer side of the OGE 450 Wizard; the reviewer side was updated in 8.7

Defects and Changes

FDM - 5351 – Intermediate Reviews now display accurately on the View/Print screen.

FDM - 5856 – Report counts now display correctly on the Work List View Mode screen for 450 Certifier after having previously navigated from Org Unit View Mode.

FDM - 6281 – Login redirection issue affecting 450 Filers with 278 reviewer roles have been resolved.

FDM - 6461 – 450 Filers and their assistants can no longer alter the Due Date on the Review Due Date Information screen.

FDM - 6983 – There is now a Back button on the Attachments page of the Supervisor Signed Outside of FDM feature.

FDM - 6988 – Navigation from Worklist/Manage Exceptions to a report, then back to My Reviews, no longer causes an issue on Org Unit View Mode.

FDM - 6997 – Agreement Types on the Agreements screen of the 450 Wizard now display correctly when the 'Other' Agreement Type is utilized.

FDM – 7005 – Line item display issue on the View/Print screen has been resolved.

FDM - 7009 – 'Glossary' and 'Open a blank OGE 450' links in the Common Questions now display correctly.

FDM - 7011 – Modernization and updated display of the eSign section of the Filer side of the 450 Wizard was implemented.

FDM - 7016 – Modernization and updated display of the Audit Trail section of the Filer side of the 450 Wizard was implemented.

FDM -7021 – Modernization and updated display of the View/Print section of the Filer side of the 450 Wizard was implemented.

FDM - 7080 – 450 Certifiers can now Request Filer Amend a second time after the Supervisor has eSigned the report.

FDM – 7152 – Completed without Signatures action is now accurately reflected in a report's Audit Trail.

FDM – 7264 – Clicking on attachment links in the View/Print screen no longer results in an application error.

FDM – 7266 – Mailto application now launches correctly on reports with an Amendment Requested or Additional Information Requested state.

FDM – 7268 – 450 Filers can no longer make edits to reports with a status of Filer Signed.

FDM – 7432 – Display issues related to the View/Print links on the Previous Screen page have been resolved.

FDM – 7434 – A display issue with the Compare screen on the reviewer side has been addressed.

FDM – 7625 – A display issue related to Asset Type on the View Asset and Investment Income screen has been addressed.

FDM – 7626 – 450 reports that have a "Signature Error" can no longer be eSigned by reviewers.

FDM – 7630 – Unassigning a Not Started report from the Org Unit View mode now correctly removes the report from the list on Org Unit View Mode.
